The Best Way To View The Newsletter Is With A PDF Reader

Palisades Fire

Knowing that a majority of the GT-C's were sold in California and quite a few in the LA area, I wondered if any of them had been destroyed by the 2025 Palisades Fire.

I reached out to one of our GT-C owners, Bobby Jones (Car #198). Bobby is an owner of the Jacky Jones Ford / Dodge / Jeep dealerships located in Western NC and North Georgia. I asked him if he could run some CarFax's on all the cars that we don't have any direct knowledge about. Bobby graciously ran all 168 Carfax reports for me.

Luckily, after reviewing all the reports I could not find any cars that had been destroyed by fire. I did get quite a bit of current data about many of the unknown cars. It has all been entered into the GT-C registry. What we did find out from these cars:

That there are 12 cars with less than 100 miles. (5 cars had less than 10 miles)

There are 25 cars that have less than 5,000 miles.

Car #117 has 188,866 miles. (10 cars had over 100,000 miles)

I would like to thank Bobby and the dealership for all his help with this. Also, If your looking for a performance Ford or Dodge car checkout their FB page. Lots of beautiful and fast cars.

Jacky Jones Performance Alley.

GT-C Callouts

Last year, I decided to design and have some discrete callouts made for our GT-C's

As you already know, there is only one place that the GT-C has any callouts, that being on the door sill trim.

These callouts are metal, chrome plated and are 3.2" wide and 1.3" tall. Checkout the attached pictures to see how they look.

I selling them at \$70.00 each. I still have 5 available for sale. Let me know if your interested.

3.2" Wide x 1.3" Tall

BAT Tracking

Like many of us, I wonder just what would our GT-C's sell for? I decided to track "Bring A Trailer" sales of Mustangs, Ford Shelby's, Shelby Mustangs, Saleens, and Roush Mustangs. I added VIN tracking later and blanks indicated cars currently for sale. Cars NOT sold show the maximum bid made.

Bring A Trailer - Mustang Sales									
Year	Ford	Shelby	Saleen	Roush	Description	Ford Vin	Miles	Sold / Not	Price

2025 GT-C Registry

The GT-C Registry is a privately maintained database. The intent is to provide GT-C owners with a resource for all 215 of these unique and rare cars. The complete registry is only shared with Verified owners. At the end of 2025, we have 109 known cars or 51% of the 215 GT-C's.

2008 Shelby GT-C Registry

Color Codes		
Registered - Verified	60	These Cars Owners Have Provided Pictures And Other Information To Verify Their Ownership
Not Registered	8	These Car Owners Have Provided Partial Proof Of Onership
Known To Exist	31	These Cars Have Been Seen In Various Web Sites Or Other Media
Totaled	10	These Cars Have Salvage Titles Or Have Been Determined To Be Destroyed
Totals	109	Percent Of 215 51% Total Cars Reported In The Registry.

Cars For Sale

NEW—Registry Sort

We have added a new page (blue tab) to the registry. The “Registry Sort” page allows you to sort all the cars by any of the headers. The GT-C (orange tab) registry page is sorted by the CSM number.

Verified Owners

> To become a “verified owner”, the registry requires that a photo of the CSM data plate be provided.

> Also needed are the car's location (City, ST), current mileage, and owner's email address.

Registry Corrections

> Owners: If you see information that is not correct or needs to be updated - let me know.

> Contact Email: 08shelbygtc@gmail.com - PM me on the Group page.

Hood Pin Crashes

How many times have you reached down and not thinking pulled the hood release with out pulling the hood pins. Damn! I admit I have done it more than a few times. Luckily, I never did any damage. I decided to add a Caution Label next to the hood release to remind me to 1st pull the pins. So far no more hood pin crashes

If you want a couple (2) of these send me a self addressed, stamped envelope.

Or send me a dollar bill with your address and I send them out to you.

Maintenance Tips—Joe Malave

I've been doing a lot of maintenance on my GT-C/SC. One easy thing is bushings. The sway bar (anti-roll bar) bushings are drying out. I have a picture of them. I also took the rear out and replaced a leaky front seal. It's important to check Axel play (I miss the Ford 9" rear). The 8.8's have axle play on the bearing ends. It should not exceed .0030". Frankly, I'd be worried if it exceeded .0010". I also did a brake job and replaced the rear shocks (yes, I kept the originals; performance-wise, they are average). I also drained the brake lines, rear-end fluid, transmission fluid, and engine fluids (except the radiator). Thinking about it, I'd like to drain and replace the radiator fluid and inspect the radiator. I also had the interior door leather reglued to the panels by a pro. These cars are officially getting old and need attention, even if you rarely use them. I still have a bit more to do, but I'm definitely getting close to finishing!

VIN Checker

NICB's VIN Check is a free look up service provided to the public to assist in determining if a vehicle may have a record of an insurance theft claim, and has not been recovered, or has ever been reported as a salvage vehicle by participating NICB member insurance companies. <https://www.nicb.org/vincheck>

VIN Decoder

The NTSB VIN Decoder is an interesting web site. Enter your Vin and you get a report on your car. <https://vpic.nhtsa.dot.gov/decoder/Decoder>

Mustang 60 Year Celebration

Mustang Week 26 at the Charlotte Speedway in Concord, NC is scheduled for August 24-29. Let me know if there is any interest in getting a group of east coast GT-C's to attend together.

Your Feedback

As always, I appreciate your feedback on any GT-C activities. Pictures of your GT-C and other related articles, pictures are always welcome.

I'm always looking for ways to promote and help appreciate the value of these special cars.

Let me know if you have any suggestions to do just that.
